HARDING SEES BIG FLOTILLA OF WARCRAFT

(By United Press)
Aboard Presidential Yacht Mayflower, April 28.—America's naval power passed in review by President Harding today over the Hampton Roads.

Led by the mighty Pennsylvania, the flagship of Read Admiral Henry Wilson, the great Atlantic fleet steamed by the president's yacht, requiring one hour and 20 minutes for the review. The warcraft were half surrounded in mist.

In the review were 10 dreadnoughts in addition to the Pennsylvania, 19 destroyers, 18 submarines and scores of auxiliary craft. Each fired the presidential salute of 21 guns in passing the Mayflower.

President and Mrs. Harding received the officers on board the Mayflower after the review. The fleet has recently returned from its annual cruise in South American waters.

"I wish you may never be called upon to again fire a gun in war," President Harding told officers of the fleet when received aboard the Mayflower.

I. W. W. FAIL TO REACH PEN HAD NO MONEY

(By United Press)
Fort Leavenworth, Kans., April 28.—Fifteen convicted I. W. W. have failed to report to federal prison here as ordered by the supreme court in affirming their sentences. Eleven members of the number may be with William D. Haywood in Russia.

The absentees who have not started their sentences include Andrew Y. Tchene of Chicago, a Russian revolutionary poet; Bill Kane, who is in Yuma, Texas, waiting for railroad fare; John Martin, the chief lieutenant of Haywood in his seditious activities, and O. B. Anderson, who is stranded in Montana and must be sent railroad fare to Leavenworth.

SAY FLOOD DANGER IN EAST ARKANSAS

(By United Press)
Popular Bluff, Mo., April 28.—Levees north of here broke last night under the heavy strain of the Black river flood and inundated all the east half of Popular Bluff. Scores of families were forced to flee from their homes, carrying what few effects they could reach in their haste.

The torrent which swept the city was eight feet deep. No deaths were reported, but live stock was killed in numbers and the damage will be considerable.

Early today the levees of the Little river drainage district were dynamited to let the water into the low lands in the eastern part of the county. Indications are that the flood from Black river, when it reaches the Arkansas will do great damage and warnings have been sent ahead.

DENY ANY GROUND FOR LOWER WAGE

(By United Press)
Chicago, April 28.—Railroad workers today presented to the federal labor board their plea against reduction of wages, as asked by the Association of American Railway Executives. They denied the assertion of the executives that the cost of living has declined enough to warrant reduction of wages or that wages in "similar industries" have been reduced.

BIG WELL TAPPED ON GOODWIN LAND

An oil well on the Goodwin tract nine miles northeast of El Dorado was brought in last night, according to a long distance telephone message this morning from Mrs. Eddie Goodwin to her daughter, Mrs. Ingram Hartje. The flow of the gusher had not been computed, but the stream topped the derrick and indicated a high production. Mrs. Goodwin and her daughter own 200 acres in the El Dorado field. Mrs. Hartje will leave tonight for El Dorado, probably joining Mr. Hartje at Little Rock, where he had gone to attend the Arkansas Bankers Association. Although several Conway people own land at El Dorado or hold it under lease, the Goodwin tract is the first to actually produce.

BRITISH EXECUTE 4 YOUNG FEINERS

(By United Press)
Cork, April 28.—Four young Sinn Feiners were executed this morning at the Cork barracks, after conviction for waging war against the crown forces. Relatives of the doomed men and Sinn Fein sympathizers surrounded the barracks, and the women were much affected as each succeeding volley by the firing squad told of an execution.

The four faced the death squad at intervals of 15 minutes.

ENGLAND SAYS GERMANY NOTE OUT OF REASON

(By United Press)
London, April 28.—Great Britain today expressed an opinion of the new German reparations note as "highly unsatisfactory" and withdrew from the controversy, leaving the supreme economic council to protect the interests of the empire.

The foreign office today announced the opinion of the government.

COTTON STEADIES GAINS SLIGHTLY

Cotton again held steady today and registered slight gains on the close. May contracts at New York, which closed Wednesday at 12.11, fluctuated over a 10-point range and closed at 12.12. July contracts opened at 12.64 and climbed as high as 12.87, dropping later and closing at 12.67. At New Orleans, May contracts opened at 11.70 and climbed slightly, but closed at only 11.77. July contracts, which closed Wednesday at 12.20, duplicated the course of May and closed at 12.22. Spots at New York were steady at 12.30 and at New Orleans at 11.25.

GOMPERS' NUPTIAL TRIP 'NON-UNION'

(By United Press)
Detroit, Mich., April 28.—Samuel Gompers, president of the American Federation of Labor, will be arraigned by the Detroit union for having spent a "non-union" honeymoon, following his recent marriage at New York.

The Detroit union last night presented charges that Mr. and Mrs. Gompers spent the first two days of their honeymoon at an open shop hotel, were served food by non-union waiters, ate meals prepared in non-union kitchens and permitted their rooms to be made up by non-union chambermaids.

CONGRESS KILLS DAYLIGHT SAVING

(By United Press)
Washington, April 28.—Daylight legislation on a national scale was virtually killed for the present session of congress when the house committee on interstate commerce voted against reporting any bill of this nature. The action of the committee was by overwhelming majority.

TO ASSESS REALTY AT 1-2 VALUATION

Real estate this year will be assessed at 50 per cent actual valuation, according to notice received from the state tax commission by Assessor Roy Rogers, who will begin the assessment of real and personal property in this township at the courthouse on Monday, May 2. The order of the tax commission, Mr. Rogers said, means that Faulkner real estate will be assessed at practically the same figures as during the past two years. Some deviations may be made in personal property assessments.

Mr. Rogers also called attention of Cadron township property owners to the days of his stay here. With the township board, he will remain at the courthouse for 10 days and then begin his rounds to the outlying townships. The 10 days will be the limit of time allowed for assessments in this township and owners must assess before their expiration.
